Ideation Phase
Brainstorm & Idea Prioritization Template

Date	31 January 2026
Team ID	SWUID202642146
Project Name	Drishyamitra AI-Powered Photo Management System
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template for the Drishyamitra AI-Powered Photo Management System project to align your team and select a core challenge to solve. Define how your photo retrieval, automated tagging, and cross-device syncing will be revolutionized.

- **10 minutes** to prepare
- **1 hour** to collaborate
- **2-8 people** recommended

Before you collaborate: Specific preparation for Drishyamitra

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team Gathering
Invite AI computer vision engineers, photogrammetry specialists, backend architecture leads, and UX researchers. Share the current competitive landscape and user research.

B Set the Goal
Define the core photo management issue to prioritize: e.g., slow multi-device retrieval, poor auto-tagging accuracy, or lack of cross-platform compatibility.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement

Frame your problem for Drishyamitra. Consider user pain points: "Users struggle to find specific photos across fragmented storage systems" or "Manual tagging is time-consuming." Transform one into a How Might We statement.

5 minutes

PROBLEM STATEMENT [HMW]

How might we [HMW] leverage advanced image recognition to enable instant, natural language search for personal photo libraries across all user devices?

Key rules of brainstorming

To run an smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

Drishyamitra AI-Powered Photo Management System

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP

You can select a sticky note and hit hts peooll (ıaııch to sketch) icon to start drawing)

Om

- Clean, intuitive photo grid view
- Seamless cross-platform app (iOS, Android, Web)
- Seamless cross-platform app (iOS, Android, Web)
- Voice command for photo searches
- Advanced duplicate photo finder

Niranjan

- AI for automatic content tagging (e.g., 'dog', 'beach', 'face')
- Semantic search capabilities (e.g., 'photos from')
- Semantic search capabilities
- (e.g., 'photos fr:.e., 'photos from Paris trip in 2018')
- Emotion recognition for tagging

Nilesh

- Auto-fixing blurry or dark photos using AI
- Accurate face recognition for people tagging
- GPS data visualization on a map

Nitish

- Auto-creation of smart storybooks
- Event-based smart album creation
- Event-based smart album creation (e.g., 'Wedding', 'Vacation')
- Secure, private sharing with time-limited links

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

TIP

Add customizable tags to sticky notes to make ıt easier to find, bıraıno, orgaıoo, and categorize Sculptual ideas as themes within your ideas.

Cluster 1: Automate photo organization using advanced AI tagging

- AI for automatic content tagging (e.g., 'dog', 'face')
- Semantic search capabilities (e.g., 'photos 'face')
- Emotion recognition for tagging
- Emotion recognition for tagging

Cluster 2: Enable effortless and intuitive photo search across all devices.

- Clean, intuitive photo grid view
- Voice command for photo Android, Web)
- Semantic search (e.g., 'photos Paris trip in 2018')
- Semantic search capabilities

Cluster 3: Deliver a seamless, feature-rich user interface.

- UI
- Voice command searches
- Voice command view
- Duplicate photo finder
- App sync
- App sync

Cluster 4: Simplify album creation and sharing of memories.

- Auto-creation of smart storybooks
- Event-based smart album creation (e.g., 'Wedding', 'Vacation')
- Secure, private sharing with

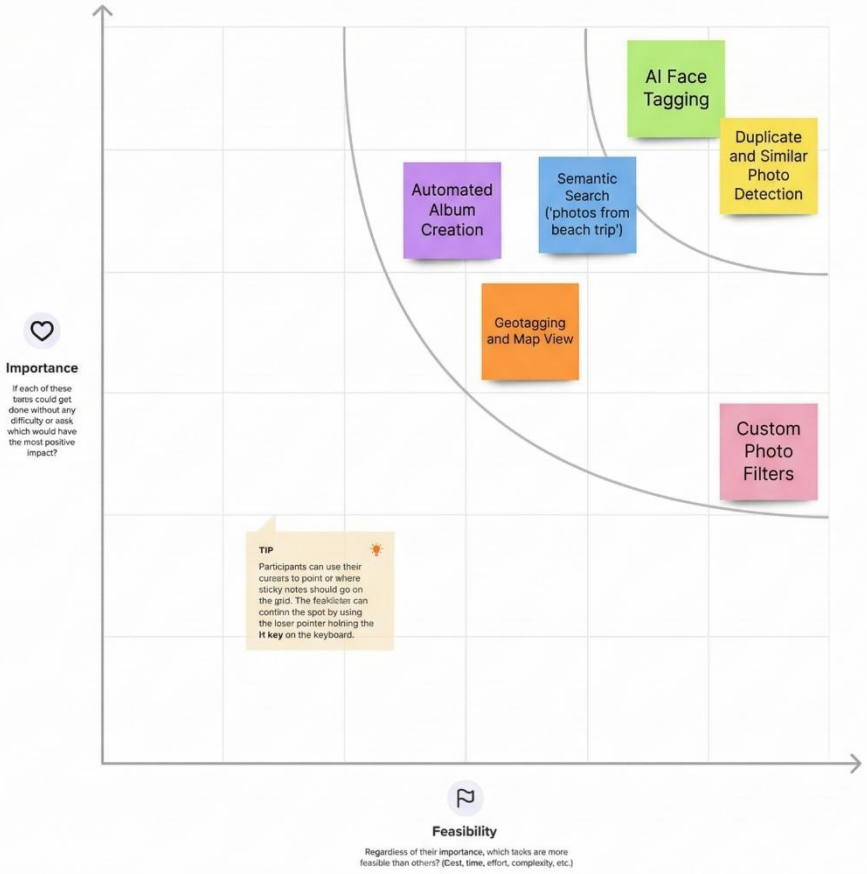
Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes



TIP

Participants can use their curears to point or where sticky notes should go on the grid. The feaklicter can confinn the spot by using the loser pointer holrning the **H key** on the keyboard.
